Working Location : Mantova, Milano

Profile

I am a passionate programmer and technology evangelist. In my work I like focus my skills on good quality software and best practices. I like travel the world, participate to international conferences.

Experience

FULLSTACK DEVELOPER, DIGITAG; MILANO – AUGUST 2015, IN PROGRESS...

I work currently at Digitag as Fullstack Web Developer. Mainly I develop integrations with external CMS such as Prestashop and Wordpress. But also I have developed custom websites and CMS for particular projects. I am also the person in charge to manage the IT of our agency and I am responsible to deploy the software on our server platform and migrate it if necessary.

FRONTEND DEVELOPER, FOOWD;FREELANCE – 2014-2015 - 10 MONTHS

My job in Foowd was to develop a platform to let user create buying groceries groups. I have used technologies such as Handlebars, jQuery, Elgg. My specific job was to write a Elgg theme for the UI and website logic.

FRONTEND DEVELOPER, BIGTHINK; MILANO – 2013 - 6 MONTHS

During my experience in BigThink I have learned how to use AngularJS and web technologies in general. This was the stage that I have done for my bachelor thesis about "Cross Platform Web Application for Mobile"

Education

Università degli studi di Milano

Master in Computer Science – *In progress* ...

"Methods and Models for the design and development of software"

Università degli studi di Milano

Bachelor degree in "Music Computer Science"

February 2015

Thesis : "From web to Mobile - Web Technologies for Cross Platform Mobile Apps "

Skills

OOP	Functional Programming			Concurrent Programming			Problem Solving		Distributed Systems	
REST	HTML5	CSS3	jQuery	JS	LESS	AngularJS (1.*)		Mustache	Handlebars	
PHP	Laravel	Prestashop	Java	Spring	Python	OcaML	Erlang	Scala	C	
Gulp	Grunt	Bower	Composer	Npm	Jenkins	Git	Shell Scripting			

Extra

I am also part of the Firefox Student Ambassadors community of Mozilla. Currently I am a member of the Firefox Club based in Milano and I am involved to the advocacy program that consist to teach other people (in my case high school student) how beautiful is the web and how to use it.

"A good programming language, will not save you from writing bad code"
